These actions included OFAC's designation of **SUEX OTC, S.R.O.** (SUEX), a virtual currency exchange, for its part in facilitating financial transactions for ransomware actors. The designation was made under the authority of Executive Order 13694, for providing material support to the threat posed by criminal ransomware actors. As a result of yesterday's designation, all property and interests in property of the designated target that are subject to U.S. jurisdiction are blocked, and U.S. persons are generally prohibited from engaging in transactions with them. Additionally, any entities 50% or more owned by one or more designated persons are also blocked. In addition, financial institutions and other persons that engage in certain transactions or activities with the sanctioned entities and individuals may expose themselves to sanctions or be subject to an enforcement action.
